Experience

Cefalo Bangladesh Limited

Dhaka, Bangladesh

SENIOR SOFTWARE ENGINEER

Aug. 2025 - Present

- Leading development on an Applicant Tracking System (ATS) module, owning design and delivery for candidate workflows and integrations.
- Implemented HackerRank integration for automated coding assessments — designed the bulk-invite flow and completed core integration work.
- Conducting R&D to select a reliable job-queue solution (RabbitMQ vs BullMQ vs Kafka) for large-scale bulk-invite and background-processing workloads; benchmarking throughput, reliability and operational complexity.
- Mentor and review peers' code; drive CI/CD improvements and automated test coverage to reduce release cycle time.

BJIT Limited

Dhaka, Bangladesh

SENIOR SOFTWARE ENGINEER

July 2023 – May 2024

- Led frontend development for an AI-powered Interview Training Platform integrating 3D avatars, emotion analysis, and real-time gaze detection.
- Built the frontend using React.js, Zustand, Three.js, Chart.js, and Tailwind CSS for an interactive, responsive user experience.
- Integrated AI services to generate interview questions from user SOPs and analyze emotions from recorded videos.
- Created and animated a realistic 3D avatar using React Three Fiber for conducting mock interviews.
- Responsible for developing the production-ready frontend of a Blockchain-based Mental Health Aid Platform with 3D avatar interactions.
- Implemented SBT (Soulbound Token) features on the Express backend to securely store user identity data on Blockchain.

BJIT Limited

Dhaka, Bangladesh

SOFTWARE ENGINEER

May 2021 – July 2023

- Worked on a Blockchain-based NFT marketplace for manga artwork, enabling creators to tokenize and sell their digital art securely.
- Developed core frontend components and integrated smart contracts for NFT minting and transactions.
- Built a Blockchain Explorer and Visualizer supporting multiple networks, displaying blocks, transactions, accounts, and event logs.
- Contributed to the development of a multi-cryptocurrency browser-extension wallet for managing Ethereum-based tokens.
- Worked on a Metaverse 3D asset marketplace — implemented image recognition to prevent duplicate uploads.
- Assisted in building blockchain middleware using web3j and managed Ethereum wallet operations.
- Collaborated in smart contract and SDK development; contributed to internal tools for blockchain load testing and performance measurement.

Education

Daffodil International University

Dhaka, Bangladesh

B.SC. IN COMPUTER SCIENCE AND ENGINEERING

Jan. 2017 - Mar. 2021

- **CGPA: 3.99/4.0**
- University Merit Scholarship in each Term of Undergraduate Studies

Higher Secondary Certificate(HSC), GPA: 4.83/5.0 — BAF Shaheen College, Dhaka

Secondary School Certificate(SSC), GPA: 5.0/5.0 — Banophool Adibashi Greenheart College, Dhaka

Research Experience

Daffodil International University

Dhaka, Bangladesh

FINAL YEAR RESEARCH STUDENT

Jan. 2020 - Jan. 2021

- **Thesis Title:** Autonomous Healthcare Robot for Assisting Patients of Contagious Disease
- **Supervisor:** Prof. Dr. Syed Akhter Hossain
- **Focus:** Robotics, Embedded Systems, Internet of Things

Research Interests

• Robotics · Embedded Systems · Internet of Things

Standardized Test Score

- **IELTS:** Overall 7.5 (L-8, R-7.5, S-7.5, W-6)
- **GRE:** V-146, Q-154, AW-3.5

Honors & Awards

INTERNATIONAL

Jan 2020 **Scholarship Participant**, JENESYS 2019, SAARC 2nd BATCH, Communications, **News**, **Facebook of DIU**

Tokyo, Japan

DOMESTIC

Jan 2019 **1st Place**, Soccer Bot, BUET Robo Carnival | **News**

Mentoring Experience

Daffodil International University

Dhaka, Bangladesh

TEACHING ASSISTANT(COURSE: CSE-135, DATA STRUCTURE LAB)

Fall 2018

- Assisted in teaching Data Structure
- Helped teacher conducting the course efficiently

Day-Long workshop on “Introduction to Robotics”, Daffodil International University

Dhaka, Bangladesh

ASSOCIATE INSTRUCTOR

Jul. 2012

- **Workshop Focus:** Introduction to PID, Balancing Robot
- Introduced (Control System) PID to students
- Construction of Balancing Robot from scratch

Technical Skills

Programming Languages: JavaScript, Java, Python

Blockchain: Proficient in Various Blockchain networks and SDKs (Ethereum, Bitcoin etc)

Web Programming: React, NextJs, ExpressJs, Java Spring boot, HTML, css

Database: MySQL, Firebase, MongoDB

Mobile Application: Android SDK Platform

Internet of Things: Proficient in Hardware and Software Designing

Technical Projects

Maze Solver with Path finding Algorithms | **Github**, **Live Site**

- ReactJS, HTML, CSS
- Can calculate and visualize the shortest path in a 2D space
- Implemented Dijkstra's and DFS algorithms for pathfinding

IOT Based Healthcare Robot | **Github**, **Video Demo**

- **C, Arduino, HTML, CSS, JavaScript, Python, Firebase**
- Autonomous Robot which can deliver goods Autonomously, Consists a Robotic Arm which can mimic users hand gestures, Hardware fully controllable using IOT website
- Implemented PID, And Left-Hand Maze Solving Algorithm

- **C, Arduino, HTML, CSS, JavaScript, Firebase**
- Monitors Environmental Parameters, and Prevents Sound Pollution.
- Sound Based Traffic Signal and Horn Prevention feature Implemented

Other Skills

- **Languages:** English (fluent), Bangla(native).
- **Writing:** Experienced in writing articles in English
- **Public Speaking and Presentations:** Experienced in speaking with confidence in public. Experience in delivering lectures, taking classes, explaining ideas
